1086402 | HSS wood drill bit - Speed Point fluting - Cylindrical shank - SLR graduated TECHNIC (Blister)

Incredibly fast and precise high-performance drill bit for the hardest of woods, thanks to its speed point cut, which is particularly suited for angled drilling.

- **Especially for hardwoods and terraces**
- **Incredibly fast drilling**
- **Maximum long life**
- **Ultra-precise/controllable drilling**
- **Made in France**

- High-speed steel
- Tri-flat shank
- SPEED-POINT tip
- SLR laser graduation

Machine

Application

Hard wood | Terrace | Laminated wood

Features

Properties and benefits

- High speed steel: type of steel especially designed for cutting tools. High strength, excellent cutting edge strength, and resistance to wear ➔ Enables the optimal, long-term cutting of tools into the hardest of woods. Maximum lifespan.
- Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. ➔ Enables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- SPEED-POINT tip: Special TIVOLY grinding bit, for simple centring, and an attack and exit without splinters. ➔ Enables incredible fast drilling, and drilling at an angle, without a guide and with no slippage.
- SLR laser graduation: laser graduation on the cutting part of the drill bit. ➔ Laser graduation allows you to control your drilling depth while the bit is rotating.

Sets

5 speed point wood drill bits Ø 2 to 5 mm

6 speed point wood drill bits Ø 2 to 8 mm

8 speed point wood drill bits Ø 2 to 10 mm
