

Standard Product Range

5SX2, >N<, 6 kA, mounting depth 55 mm

- U_n : 230/400 V, 50-60 Hz, applicable in networks up to 250/440 V AC, 60 V DC per pole
- Standards: EN 60898, DIN VDE 0641 Part 11, IEC 60898
- Additional components can be retrofitted individually.

Characteristic B

Line protection mainly used in residential building installations; no proof required regarding personal safety.

Characteristic C

General line protection, especially advantageous with higher starting currents (lamps, motors, etc.).
