

Narrow Stitching Heads

M50/8

The M 50/8 for standard or loop stitching has been specifically designed so that even users of Müller Martini or Osako gang stitchers can enjoy the quality of Hohner stitching heads.

- ◆ The M 50/8 is especially designed for the entire range of Müller Martini gang stitchers.
- ◆ Thanks to optional exchange parts sets one can stitch standard staples with 14 mm (0.55 in.) crown width as well as loops with inner diameter of 6 mm (0.24 in.) or 8 mm (0.32 in.). Conversion takes only a matter of minutes.
- ◆ It is possible to stitch between two sheets and 8 mm (0.32 in.) with a standard stitching head.
- ◆ The narrow construction and minimum distance of 50 mm (1.97 in.) between stitch centres is especially beneficial when fitting many heads together.
- ◆ A sophisticated centering technique allows the facility of loop stitching down to only two sheets depending on paper stock.
- ◆ A roller straightens the wire precisely.
