

Narrow Stitching Head

UNIVERSAL 52/8

A narrow stitching head for standard stitching or loop stitching.

- ◆ The stitching head for really high speeds: up to 20,000 cycles per hour.
- ◆ The most flexible wire stitching head available: Optional exchange parts sets are available for different crown widths, inner diameters of loop or types of wire.
- ◆ A central adjustment of wire length and stitching thickness means that alteration from one job to another takes only a few seconds.
- ◆ Maximum stitching thicknesses of 8 mm (0.32 in.) when standard stitching with 14 mm (0.55 in.) crown width, 4 mm (0.16 in.) when stitching loops with inner dia. of 6 mm (0.24 in.), 3 mm (0.12 in.) when stitching loops with inner dia. of 8 mm (0.32 in.).
- ◆ Min. distance between staples depending on stitching thickness: 52-65 mm (2.05-2.56 in.) when standard stitching with 14 mm (0.55 in.) crown width, 54-60 mm (2.13-2.36 in.) when stitching loops with inner dia. of 6 mm (0.24 in.), 64-68 mm (2.52-2.68 in.) when stitching loops with inner dia. of 8 mm (0.32 in.).
