Marketing

Utilizing Industries	Skilled trades
Application	Cleaning | Applying liquids
Application Description	The hand brush is used for applying fluids and cleaning.
Article Description Marketing	Hand brush
On Stock as per Catalogue	Yes
Catalogue Page	99
Product Description short	Hand brush, with body length of 700 mm, brass wire filling in 5 rows and PEFC-certified beechwood
Product Description long	The hand brush is used to manually remove dirt and deposits on soft and sensitive surfaces. It is also suitable for fine brush work and for applying solvents and cleaning agents. Because the filling is not as high, this brush is more aggressive than other LESSMANN hand brushes. The body of the brush is made of PEFC-certified beechwood. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, goldsmith shops and repair shops.

Description

Special hand brushes
Special hand brushes from LESSMANN are for custom brush applications.

Brush body PEFC-certified
These brushes are fabricated with a PEFC-certified beechwood body, meaning they contribute to supporting sustainable, regional forest management.
