Third-party tested and certified

DESCRIPTION	The Spacenet™ is a strong catch net designed as a backup system to catch falling materials when working at height. A durable, lightweight aluminium fold-out frame helps to maintain the Spacenet™ structure during use and along with the adjustable slings makes it easy to set up and adjust to any rigging situation. Easy to transport from site to site The Spacenet™ can be simply collapsed and rolled up into a compact and manageable package. The lower zip allows the Spacenet™ to be emptied easily after use whilst the built-in air vents allow the breeze to pass through the net and allow the net to be used in low-windspeed environments. Pair with the Impact Zone Mat (101673) to create an even more durable product.	
FEATURES	Features fully removable, adjustable slings for adapting to any rigging scenario. Lightweight aluminium frame keeps a rigid structure and helps reduce dynamic impact forces from falling objects and debris Can be easily collapsed and rolled for transportation Features an easy-empty zip on the base Built-in air vents allow airflow in windy conditions Internal hook and loop fasteners for easy installation of NLG Spacenet™ Impact Zone Mat (101673)	
TECHNICAL SPECIFICATION	Max Load: 20 KG / 44 LBS Load Tested and Third-party Certified: Dynamic (2:1 Safety Factor) NLG ID™ Technology / Scannable Compatible Unique Serial Number Dimensions: 1m (H) x 1m (W) x 2m (D)

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
