ISO 17025 Certified Calibration Tiles

ISO 17025 certified calibration tiles are essential tools for calibration laboratories and quality control facilities, providing the critical foundation for accurate gloss measurements across industries.

As the UK's premier manufacturer of glossmeters, Rhopoint Instruments offers ISO 17025 certified calibration tiles suitable not only for Rhopoint IQ and Novo-Gloss instruments but other gloss measuring instruments.

Calibration companies trust our tiles to:

- Maintain the highest accuracy in their calibration services
- Provide documented traceability for quality audits
- Ensure consistent measurements across different facilities
- Meet international quality management requirements

100x100mm calibration standard with ISO 17025 certificate
