

AXIS 225FD Fixed Dome Network Camera

Professional video surveillance in tough conditions.

- > Vandal resistant
- > Superior image quality
- > Simultaneous MPEG-4 and Motion JPEG
- > Powerful event management
- > Power over Ethernet

AXIS 225FD Fixed Dome Network Camera has a discreet, vandal-resistant design that gives maximum protection in tough conditions. It offers a perfect solution for securing school and university campuses, railway stations, parking lots and other facilities.

Vandal-resistant and outdoor-proof, with built-in heater and fan, AXIS 225FD gives maximum protection in tough environmental conditions.

AXIS 225FD delivers crisp and clear images, day and night, thanks to its progressive scan sensor and automatically removable IR filter.

Simultaneous MPEG-4 and Motion JPEG allow systems to be optimized for both image quality and bandwidth.

The camera provides powerful event management with video motion detection, active tampering alarm and pre- and post-image buffering.

AXIS 225FD allows for versatile adjustment at installation by panning, tilting and rotating the varifocal lens to any camera angle desired. It supports Power over Ethernet, allowing power to be delivered via the network, which eliminates the need for power cables and reduces installation costs.
