

1:11 HDD Copy Cruiser High-Speed

Product Features

- Duplicate up to 11 Hard Disk Drives simultaneously at speeds up to 120 MB/s
- Sanitize up to 12 Hard Disk Drives simultaneously with Secure Erase or your choice of 3 Overwrite options: One Pass, Three Pass with Verify, DOD 5220.22-M 7-Pass
- Stand Alone Operation
- Lockable Quick Load Drive Doors
- Supports 3.5" SATA HDDs and Solid State Drives (SSDs)
- Supports 2.5" SATA HDDs and SSDs with optional Aleratec adapters (P/N 350106), not included

UP TO 120 MB/s DATA TRANSFER SPEEDS

The Aleratec 1:11 HDD Copy Cruiser High-Speed is an industrial-strength, standalone hard disk drive duplicator that can create eleven clone hard disk drives simultaneously at speeds up to a blazing 120MB/s. It can also securely wipe all the data from up to twelve hard disk drives at a time with Secure Erase or your choice of three comprehensive sanitization algorithms: a one-pass wipe, a three-pass wipe with verify, or a powerful DoD 5220/22-M seven-pass wipe. The unit is compatible with 3.5" internal SATA hard disk drives, and can accept 2.5" SATA drives with optional adapters, not included (P/N 350106).

1:11 HDD Copy Cruiser High-Speed™

Technical Specifications

Operating Temperature:

41°F to 122°F / 5°C to 50°C

Humidity:

15% - 80% RH

Power Requirements: 100V-240V AC, 50/60Hz

Dimensions (LxWxH): 416 mm x 191 mm x 648 mm
16.375" x 7.5" x 25.2"

Weight: 14.7 kg / 32.5 lb

Warranty: Limited 1 year parts and labor

Country of Origin: Assembled in the USA
from components sourced globally

UPC Code: 808068-00867-5

Duplication

The 1:11 HDD Copy Cruiser High-Speed performs a sector-by-sector copy from a single source hard disk to up to eleven target drives, regardless of brand, operating system or format of the drives. The copy includes partition and boot sector information for a perfect clone.

Secure Erase and Overwrite Sanitization

Responsible organizations and individuals understand that the sensitive, private data on their disposed or redeployed hard disk drives are vulnerable if those drives are not properly sanitized. The 1:11 HDD Copy Cruiser High-Speed these efforts by offering overwrite sanitization, up to and including DoD recommended levels, as well as Secure Erase. Secure Erase is a National Institute of Standards and Technology 800-88 accepted technique for properly purging hard drives. This method is supported by almost all modern SATA hard disk drives. It also works up to 60% faster than a one-pass overwrite and up to 90% faster than a 7-pass overwrite.
