

## Technical Data for Motor-Driven Shift Unit

### Operating conditions

|  |   |                  |
|--|---|------------------|
| Operating temperature                  | : | -20°C to + 120°C |
| Nominal voltage                        | : | 24V              |
| Nominal current                        | : | max 5A at 24V    |
| Power consumption with nominal current | : | 120W             |
| Short circuit at nominal voltage       | : | 5 s              |
| Shift force at the shift fork          | : | 500 N            |
| Shift travel at the shift fork         | : | 13 mm            |
| Shift time                             | : | ≤ 1 s            |
